

Leading the charge for recycling.™

## **Batteries allowed in this box\*:**

Lithium Ion (Li-ion)

Nickel Cadmium (Ni-Cd)

Nickel Metal Hydride (Ni-MH)

Nickel Zin (Ni-Zn)

Small Sealed Lead Acid (SSLA/Pb)

\*All batteries must be bagged individually or have terminals taped.

\*Damaged batteries are not accepted at this location. Customers with damaged batteries should contact Call2Recycle Customer Service 877.723.1297 or a local battery specialty store for disposal.

\*Call2Recycle box should be kept out of general public areas and may only be accessed by employees. Leave the black liner in the box. It is a flame retardant layer added to increase safety during shipping.

\*When full, prepare box for shipping by removing backing from any adhesive strips and folding down and inserting side flaps. The pre-paid, pre-addressed shipping label is attached. Do not apply any additional labels. Write the return address in the spot provided. Set out for the County's General Mail Service to pick up the box.

\*All alkaline, lithium primary and any other small, household batteries not listed above through to the Lamp Recyclers collection area (near the bulb collection).
